Supplemental Information: As part of its emphasis on better service for trademark applicants and registrants, the responsibilty for receiving, opening and routing of trademark mail is being transferred to the Assistant Commissioner for Trademarks. In order to more efficiently process the mail, the Assistant Commissioner has determined that trademark-related mail, except for trademark-related documents sent to the Assignment Branch for recordation and requests for certified copies of trademark application and registration documents, should be sent directly to the Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Va. 22202-3513, which is the location of the Trademark Operation. Having mail sent directly to that address should speed up processing and reduce the amount of lost or misrouted mail. The mail room at the South Tower Building will begin to receive and process mail on July 5, 1994. For a period after July 5, 1994, the Patent and Trademark Office (Office) will receive trademark-related mail at both the old address, Commissioner of Patents and Trademarks, Washington, D.C. 20231, and at the new address, Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Va.,

22205-3513. The Office is currently preparing a notice of proposed rulemaking to formally change the address for trademark-related papers. The Office will continue to maintain the following special boxes, Box Trademark Application, Box ITU, Box AAU, and Box 5, for expedited processing and distribution of specific types of documents. The Office encourages the continued use of these boxes with the new address.

People may continue to file both patent and trademark-related papers directly at the Attorneys' Window located in Room 1B03 of Crystal Plaza Building 2, Arlington, Va.

Sections 1.8 and 1.10 of Title 2 of Section 37 of the Code of Federal Regulations are waived, to the extent that, on or after July 5, 1994, a certificate of mailing under §§ 1.8 or 1.10, for trademark applications and other trademark-related mail, except for trademark-related documents sent to the Assignment Branch for recordation and requests for certified copies of trademark application and registration documents, may be addressed either to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, or to the Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Va., 22202-3513. Patent-related mail should continue to be sent to: Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Authority: 35 U.S.C. 6, 15 U.S.C. 1123

Response Requested to 1993 Patent Examiner's Action Survey

As part of the continuing quality reinforcement efforts of the Patent and Trademark Office, the Office has sent out a Patent Action Survey For with each Patent Examiner's Office action mailed during a period of several weeks during December, 1993-January, 1994. If you have received one or more of these forms, please complete each one, no later than the time of response to the Office action being surveyed.

The survey is intended to determine whether Office actions are perceived to be clear and complete on certain specific and important items related to patent examining practices and procedures. The results of the survey will be used in the development of Office training programs. The survey is a follow-up to the Patent Action Surveys conducted in 1991 and 1992. Where training is provided to address identified deficiencies in performance, follow-up surveys are intended to be conducted in the future to determine whether the training was effective enough to improve performance in the measured areas.

The Survey Form is brief and easy to complete and does not permit identification of the respondent or of the particular application involved. The Survey Form may be completed at the time of response to the Office Action. It is possible that a practitioner may receive many Office Actions containing a Survey Form during the survey period. To have results that are meaningful, the Office needs a high response rate. Therefore, it is important that patent practitioners complete each survey form no later than the time of response to the Office action being surveyed. To assure that this form is completed and mailed back to the address indicated on the Survey Form, it would be desirable for patent practitioners to have their office managers/docketing personnel take appropriate steps to keep the form and Office action together for the practitioner's benefit.

Your cooperation in completing the Survey Form is appreciated.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date.
